

Young Lhasa Apso

Lhasa Apsos are a joyful, mischievous and devoted breed. You should also know they can be predisposed to the following ailments. Examinations twice a year and routine diagnostics to catch problems early, when they are easiest to treat, are recommended for the life of your dog.

Periodontal Disease

Description

Periodontal disease, which is inflammation and infection of gum tissue, occurs when plaque and tartar are allowed to build up on teeth. It progresses to gum recession, and bone and tooth loss.

Early Detection

Recommended: oral exams twice a year and annual dental cleanings.

Why Needed

Periodontal disease can contribute to:

- Pain
- Difficulty eating
- Jaw bone and/or tooth loss
- Kidney, liver and heart disease
- Behavioral changes

Urolithiasis

Description

Urolithiasis is the formation of stones in the urinary tract, usually in the kidney or bladder. They are commonly referred to as kidney or bladder stones. These stones irritate the lining of the urinary tract.

Early Detection

Recommended: an annual urinalysis to detect blood or crystals in the urine.

Why Needed

Urolithiasis can contribute to:

- Difficulty urinating
- Blood in the urine
- Kidney damage
- Inability to urinate which can be fatal
- The need for surgery

Keratoconjunctivitis Sicca (KCS)

Description

KCS is an inflammatory disease of the eye where the tear glands no longer produce enough tears to keep the eyes moist. This can progress to excessive discharge, dry eyes, and recurrent eye infections.

Early Detection

Recommended: starting at age 2, an annual Schirmer Tear Test to determine tear production.

Why Needed

KCS can contribute to:

- Pain
- Eye infection
- Eye ulcers
- Vision loss

Optimum Wellness Plans® and Lhasa Apsos

Included in the Active Prevention Plan

- Oral examinations twice a year*
- Annual dental cleaning
- Annual urinalysis
- Ophthalmic examinations twice a year*

*Part of the comprehensive examination

Plus the preventive care in each plan and 15% off on nearly all products and services

Consult your Banfield medical team for the best plan level for your individual pet.
